

“Nothing to Me, Without Me”

By Elizabeth Nadeau (Mentor), Tammy Ng (Medicine), Adelena Leon (OT), Kyla Woo (Dentistry), Benjamin Brett (Nursing)

“In adverse circumstances, the patient faces a complex system where they have to advocate for themselves. Caring about the patient is key.”

Focus on Patient Empowerment

Work with the
patient, not on the
patient.

IT'S SUPPOSED TO MAKE YOU FEEL "ENGAGED."

BEFORE I MAKE MY DECISION, I'D LIKE TO ASK FOR YOUR OPINIONS.

AND YOU ACTUALLY PLAN TO LISTEN TO US?

I'M HOPING IT WILL LOOK THAT WAY ON THE OUTSIDE.

Speak up against
the Status Quo!

Keep it professional when advocating
with other HCPs, and when
empowering patients

Respect among the
healthcare team is
essential to patient
care

Thank You!
